

Two people, one electric car, and 2,454 miles the long way to Greece.

Hi! We are the couple behind **EV There Yet?** This September we are pointing our **BYD Sealion 7** out of our driveway in Cheshire and not stopping until we reach the Greek island of Kefalonia. Over the Alps, down the Adriatic, across nine borders, on nothing but electricity.

No support crew, no safety net, and honestly, not much of a clue. That is the whole point. We are filming every mile the way it actually happens: the range maths, the wrong turns, the chargers that do not work, and the sunsets that make all of it worth it. If it goes wrong, that goes in the film too.

what we are making

A story people can ride along with, not just watch

The films

A YouTube series following the whole journey, plus shorts along the way. Honest, warm, and properly useful: real range figures, real costs, and what nine countries of charging is actually like in 2026.

The website

- A live trip tracker and daily diary from the road
- A crowdfunder where followers own individual miles
- Route decisions our audience votes on, and we obey
- An interactive EV trip planner and honest EV guides

why now

We are brand new. That is the opportunity.

We will not pretend to have a million subscribers. What we have is a story that starts in September, an audience that will grow with it, and space for a small number of partners to be part of it from the very first episode, not bolted on afterwards. Everything we learn on the road, from efficiency to cost per mile to which charging networks actually deliver, gets measured and shared openly. Your brand sits inside that honesty.

ways in

Partner tiers

a taste

Charge Partner

- A genuine product mention woven into a film
- A thank-you across YouTube, Instagram and TikTok
- Your logo on our partners page

most popular

Leg Partner

- On-camera integration across a whole leg of the route
- A dedicated social post and newsletter mention
- A real-world data call-out: efficiency, charging, cost
- Everything in Charge Partner

the whole trip

Founding Partner

- Your brand alongside the entire Kefalonia series
- A dedicated segment and first-party case study
- Priority on the trips that come after this one
- Everything in Leg Partner

let's make something good together

Every partnership is shaped around you

These tiers are a starting point, not a fixed menu. Tell us your goals and budget and we will build something that fits.
